An Introduction to ABIR

An Introduction to ABIR

- ❑ Arab Building Industrial Resources Company W.L.L. (“ABIR” or “the Company”) was established in 1981, with a capital of KD 250,000 as a Kuwaiti limited liability company for carrying out general trading and contracting works.
- ❑ The Company is a 100% owned subsidiary of **Ahlia Chemicals Company**, which in turn is 100% owned by one of the largest equity investments company “**National International Holding Company K.S.C.C.**”, Kuwait.
- ❑ ABIR is a multi disciplined civil works sub-contractor with desired knowledge, experience and resources to undertake projects of any size within Kuwait and GCC countries.
- ❑ While we continue to focus on executing waterproofing sub-contracts largely, we offer the following range of services:
 - Bridge deck waterproofing works
 - Anti Carbonation painting works
 - Waterproofing & damp proofing works
 - Thermal insulation works
 - Repairing & protection for reinforced concrete
 - Protective coating works
 - Industrial flooring & topping works
 - Soil stabilizer & injection works
- ❑ Over the years, the Company has undertaken many challenging projects and accumulated skills, know-how and experiences in civil works and engineered solutions.

An Introduction to ABIR (Contd...)

Mission

ABIR's mission is to procure projects at competitive pricing, provide safe working conditions and deliver quality work within reasonable time frame.

Vision

To be a respectable contracting company delivering beyond expectations of the clients, always.

Philosophy

Our project management and execution philosophy is:

- ✓ Create detail schedule and resources plan to meet client's project objective.
- ✓ Communicate clearly with all project stakeholders
- ✓ Track project progress and fine tune deviations
- ✓ Supervise closely on quality of work done
- ✓ Complete and commission the project on time.

❑ We pride ourselves on providing 'buy in' to our projects and will offer alternative and innovative solutions that can result in savings in both time and cost for our clients.

An Introduction to ABIR (Contd...)

- ❑ ABIR is conveniently located in Subhan Industrial Area for ready access to any project site within the State of Kuwait.
- ❑ We undertake regular site safety audits of our worksites to monitor our own compliance with safety regulations and practices and have a procedure in place for the investigation and reporting of accidents.
- ❑ Whilst at ABIR we actively tender on small to large projects, we have many repeat clients within the State of Kuwait.
- ❑ Our private clients include, construction companies, organizations, contractors, property developers, and private individuals.
- ❑ Our government clients include Kuwait's Public Authority for Housing Welfare, Ministry of Public Works, Ministry of Electricity & Water, Ministry of Defence, Ministry of Health etc. We are usually engaged by main contractors to government authorities in order to undertake the sub-contracts.
- ❑ We are often invited at the early stages of a project to add value up front instead of the traditional tender process.

An Introduction to Ahlia Chemicals Company

- ❑ Ahlia Chemicals is one of the leading manufacturers of construction specialties chemicals in the state of Kuwait and including but not limited to Concrete Additives, Range of Bitumen Protective Coatings, Cementitious Products, Industrial Flooring (Epoxy and Cementitious based Systems), Bituminous Waterproofing Membranes, Foaming Agents, Mortar Additives, Polysulfide Sealants, Hydrophobic PU Injection and all types of Grouting Materials asphalt emulsions and other chemicals used as insulation against water and humidity. The Company also trades in similar items.
- ❑ With the track record of over 35 years, Ahlia Chemicals, an ISO 9001:2008 certified company, is the pioneer in its field and has successfully achieved its objectives by gaining respect and confidence in both quality and services, from clients in Kuwait as well as other neighboring countries.
- ❑ Today Ahlia Chemicals covers more than 60% of the local market share in the construction specialty field with a vast perspective for growth and expansion.
- ❑ The Company is the only manufacturer of bitumen emulsions in the State of Kuwait. Products are manufactured in accordance with international standards and it meets ASTM, BS & DIN standards as relevant. Ahlia Chemicals had the privilege of being the first manufacturer of its kind in Kuwait to receive the ISO 9001:2008 quality certification.

Our People

Our People

- ❑ Our people are crucial in the delivery of our services and solutions to our clients. In order to ensure that everyone is equipped with the right skill, knowledge and attitude, a comprehensive training program is put in place to constantly upgrade our people in technical and management skills.
- ❑ ABIR employs and maintains a stable and experienced work force of about **150 skilled labour** with the necessary qualifications to meet the strict quality requirements of local government authorities and project consultants. Our contract managers have the knowledge and expertise to effectively manage the most technically demanding projects.
- ❑ We believe firmly in providing the right training, and practical knowledge for our people, in order for them to execute their duties and responsibilities confidently. Our aim to stay relevant to the ever-changing market place and client's requirement.

Our Fleet of Equipment

Our Equipment

Bridge Deck Waterproofing & Relevant Experience

Bridge Deck Waterproofing and Relevant Experience

- ❑ By far, ABIR is the only company in Kuwait which has an experience of laying bridge deck waterproofing using BBA approved membrane system for about 500,000 sq. meters. ABIR has installed Pitchmastic's (PmB) membrane system on RA 167, RA 166, RA 184 and RA 186 projects in Kuwait during the last two (2) years.
- ❑ Our bridge deck waterproofing system application staff has been carefully chosen and then trained on the site by Pitchmastic PmB to install their system in strict accordance with the guidelines set out by the British Board of Agrément (BBA) in their certificate.
- ❑ Pitchmastic PmB, in order to ensure zero defects in their system's installation, mandated ABIR that only 'trained operatives' are authorised to apply its products and systems, having undergone regular toolbox talks, practical training and on-site auditing to maintain necessary skills base.
- ❑ ABIR has so far neither received any kind of complain from the contractors or consultants with whom it got involved for execution of bridge deck waterproofing nor found any deviations in applications which are monitored through its internal control system.

Bridge Deck Waterproofing at RA 167 Jamal Abdul Nasser Street Project, Kuwait

ABIR has started Bridge deck waterproofing using (BBA) approved membrane system in Oct'15 for RA-167 Jamal Abdul Nasser Street Project. Until now we have executed 350,000 square meter out of 480,000 square meter.

Bridge Deck Waterproofing at RA 166 Jahra Road Project, Kuwait

ABIR has started Bridge deck waterproofing using (BBA) approved membrane system in June'16 for RA-166 Jahra Road Project. Until now we have executed 80,000 square meter.

Bridge Deck Waterproofing at RA 184 and RA 186, Kuwait

Anticarbonation Coating Works & Relevant Experience

Anticarbonation Coating Works at RA 167 Jamal Abdul Nasser Street Project, Kuwait

ABIR has started Anticarbonation Coating Works in Oct'15 for RA-167 Jamal Abdul Nasser Street Project. Until now we have executed 500,000 square meter out of 800,000 square meter.

Contracting Services by ABIR

Waterproofing Works

- ❑ ABIR has excelled itself in executing waterproofing and damp-proofing works with bitumen based materials, polymer modified cement, acrylic, epoxies, polyurethane system etc. for local residential and commercial projects with both government institutes and private contractors.

- ❑ Our main areas of applications include:
 - All types of foundations, whether it be raft or combined or strip footings.
 - Basements and car parking.
