DESCRIPTION
CAPBOND EP SPL is a medium viscosity moisture insensitive all purpose bonding agent is a two component, 100% solid epoxy resin designed to bond new concrete to old concrete and other materials to concrete. When mixed with sand can be used as patching compound.

USES:
- To bond new concrete to old concrete
- General adhesive

FEATURES
- Medium viscosity aids penetration
- High bond strength.
- May be extended with sand and aggregate for mortar repairs.

TECHNICAL DATA
Applicable standard
ASTM C-881 Type II Grade II
Class B and C

PROPERTIES at 25 °C

DIRECTIONS FOR USE
Surface preparation
Concrete surface must be clean sound and dry. Remove all previous sealers, grease, oil and other contaminants, which may impair bond. Remove surface Laitance by Sand Blasting or by other Mechanical means. Vacuum surface to remove all dust and debris. Newly constructed Floor should be cured as per construction norms.

Mixing
Stir each component separately in original packing with a slow speed drill. Empty the components B in component A and, mix it for 2-3 Minutes or until uniformity with a slow speed drill.

CAPBOND EP SPL kit is supplied in preweigh packs mix only the quantity that can be used within its gel time.

Application
To bond fresh concrete to hardened concrete:
Apply by brush roller, or spatula to cured concrete substrate, place fresh concrete while bonding agent is still tacky. If coat of bonding agent has loss tackiness, before pouring concrete, roughen epoxy surface, recoat with capoxy bond spl and proceed. with fresh pour of concrete.

COVERAGE
CAPBOND EP SPL 1.8 M²/kg

CLEANING OF TOOLS
Clean the tools with CAP THINNER immediately after use, remove uncured CAPBOND EP SPL from tools and equipment by using CAP THINNER. Cured material may only be removed mechanically.

PACKAGING
CAPBOND EP SPL 1 kg and 4 kg pack

STORAGE
CAPBOND EP SPL should be stored under shade at temperatures between 10° and 35°C.

SHELF LIFE:
12 months in sealed original container, under recommended storage conditions.

SAFETY PRECAUTIONS
Keep container closed when not in use
Keep out of reach of Children
Both components are irritant, prolonged contact with skin or Eye may cause irritation.
FIRST AID
Skin contact
Wash thoroughly with soap and water.
Eye contact
Flush immediately with clean water and seek
Hygiene
Wash hands immediately with CAP THINNER followed by soap and water.

TECHNICAL SERVICE:
Our Technical Service Department is available at any time to advise you in the correct use of this product or any other Ahlia products.

Note: The information presented herein is based on the best of our knowledge and expertise for which every effort is made to ensure its reliability. Although all the products are subjected to rigid quality tests and are guaranteed against defective materials and manufacture, no specific guarantee can be extended because results depend not only on quality but also on other factors beyond our control.

As all Ahlia Technical Data Sheets are updated on a regular basis, it is the user responsibility to collect most recent issue.
