DESCRIPTION

CAPBOND EP is a medium viscosity all purpose bonding agent. It is a two component, 100% solid epoxy resin designed to bond old concrete to old concrete and other materials to concrete. When mixed with sand it can be used as patching compound.

USES:
- To bond old concrete to old concrete
- General adhesive

FEATURES
- Medium viscosity aids penetration
- High bond strength.
- May be extended with sand and aggregate for mortar repairs.

STANDARDS/TEST METHOD
ASTM C-882, D-638, D-570, D-695

TECHNICAL DATA

Properties at 25°C

DIRECTIONS FOR USE

Surface preparation
Concrete surface must be clean, sound and dry. Remove all previous sealers, grease, oil and other contaminants, which may impair bond. Remove surface Laitance by Sand Blasting or by other Mechanical means. Vacuum surface to remove all dust and debris. New concrete should be cured as per construction norm.

Mixing
Stir each component separately in original packing with a slow speed drill. Empty the components B in component A and, mix it for 2-3 Minutes or until uniformity with a slow speed drill.

CAPBOND EP kit is supplied in preweigh packs. Mix only the quantity that can be used within its gel time.

Application

CAPBOND EP should be applied evenly with brush, roller, or spatula to the surface, while coating is tacky, join the coated substrates and secure firmly into place.

COVERAGE
Up to 2m² Kg

CLEANING OF TOOLS
Clean the tools with CAP THINNER EP immediately after use, remove uncured CAPBOND EP from tools and equipment by using CAP THINNER. Cured material may only be removed mechanically.

PACKAGING
CAPBOND EP: 1 kg and 4 kg Kit

STORAGE
CAPBOND EP should be stored under shade at temperatures between 10°C and 35°C.

SHELF LIFE:
12 months in sealed original container, under recommended storage conditions.

SAFETY PRECAUTIONS

Keep container closed when not in use
Keep out of reach of Children
Both components are irritant, prolonged contact with skin or eye may cause sensitization.

FIRST AID
Skin contact
Wash thoroughly with soap and water.

Eye contact
Flush immediately with clean water and seek medical advice.

Respiratory Problem
Remove affected person to fresh air immediately. And contact physician.

Hygiene
Wash hand immediately with CAP THINNER Followed by soap and water.
